SPACE ENTREPRENEURSHIP

How is space conquered today?

FREE EVENT - LIMITED SEATS, PLEASE REGISTER: https://goo.gl/Q2g2ow

Despite complexity of the extreme outer space conditions, the inaccessibility of satellites in operation, the long run to generate revenue, entrepreneurs continue to dream big and far ahead.

Why space entrepreneurship is so present today after years of status quo?

Do space entrepreneurs introduce innovative management practices?

Volker Gass
Director, Swiss Space Center (EPFL)

Daria Lopez-Alegria
Founder of SpaceBridges

Julian Harris
Chief Technical Officer, ELSE SA

Patricia Cooper
Vice President of Satellite Government Affairs, SpaceX
